

CRASS TRAINED

1. We ask anyone showing signs or symptoms of COVID-19 please not attend any events held in our facility.
2. Please be sure to take your temperature before you leave to attend an event in our facility, and if you are 100 or above, please do not attend.
3. We will ask people to follow our local guidelines regarding masks, however we are not the mask police and will not be approaching anyone who chooses not to wear one.
4. We will ask people not to show up more than 20 minutes prior to when they are scheduled to compete. This is to ensure the group before you has time to complete wrestling and clear out of the facility prior to your entry.
5. We will ask people to keep attendance down to 1 person per wrestler. This includes coaches, parents, siblings, fans, etc. If you would like to have more than 1, please be sure someone else on your team doesn't have anyone.
6. There is no eating in the wrestling space. We have a lounge with full concessions and you will be able to eat and drink in that area.
7. There is no drinking anything besides water in the wrestling space. This is to ensure if there is a spill the clean up is simple.
8. Please be sure your wrestler's fingernails are clipped prior to showing up for your first match. We need to move matches along quickly and waiting for someone to clip their nails slows the day down for everyone.
9. Finally, it should go without saying that we expect everyone to be respectful to everyone else in the facility. We are fortunate to be able to provide wrestling opportunities to kids and we ask that we all remember that regardless of the situation.

We look forward to hosting all of you!
